

DIGITAL PANEL SPECS FOR ROCKBOX - PORTRAIT DIGITAL

Standard Slot Length: 10 Seconds

NOTE: The Digital Panel spec is different to the 6 sheet poster spec - the aspect ratios are different sizes. If you plan to use the same artwork for the digital panels and 6 sheets, please modify accordingly.

Artwork must be the required size and rotated to the correct orientation.

All artwork is subject to approval, at least 3 days turnaround is required. Please supply final, approved artwork 1 week before campaign start date

Designs with white background will play out as intended but may not produce the best photography due to camera exposure compensation.
